ABOUT ME

Frontend Developer with corporate web management experience, focused on writing clean code, learning modern web technologies, and translating UI/UX designs into responsive, user-friendly applications.

EXPERIENCE

Platform Build Specialist

Pliva Hrvatska d.o.o.

07.2023 – Present

Zagreb, Croatia

- Manage corporate websites via enterprise CMS, applying HTML/CSS and editing visual materials to maintain brand standards.
- Conduct QA, UAT, and sanity testing to ensure platform stability and flawless user experience.
- Develop interactive digital content in close collaboration with international, cross-functional teams.

PROJECTS & ACADEMIES

Sofascore Canteen | *[GitHub]* | *React, TypeScript, SWR, Panda CSS*

03.2026 – 06.2026

- Built an internal application for real-time order tracking, meal planning, and live data fetching during the Sofascore Academy.
- Implemented dynamic state management using Zustand and optimized server-state synchronization via SWR.
- Delivered robust features and reviewed code within Agile sprints under direct mentorship of senior engineers.

FilmStar (Bachelor's Thesis) | *[GitHub]* | *React, JavaScript, Firebase Auth, TMDB API, CSS* **03.2023 – 06.2023**

- Developed a responsive web application for exploring movies and TV shows, connected to the TMDB API.
- Integrated Firebase Authentication for secure user logins and personalized user watchlists.

EDUCATION

Zagreb University of Applied Sciences
